

Resilience Engineering – from Safety-I to Safety-II

26-27 February, 2013

Lecturer: Professor Erik Hollnagel

Program:

Tuesday 26 February

09:45-10:00	Registration & Welcome (HFN)
10:00-12:00	Resilience Engineering – from Safety-I to Safety-II
12:00-13:00	Lunch
13:00-14:00	How to develop resilience: The four abilities. (RAG)
14:00-15:00	Group work I (The ability to respond)
15:00-15:20	Coffee/Tea
15:20-16:20	Group work II (The ability to monitor)
16:20-17:00	Discussion of today's topics

Wednesday 27 February

08:30–10:00	From linear to non-linear event descriptions: RCA to FRAM
10:00-10:20	Coffee/Tea
10:20-11:20	Group work III (The ability to learn)
11:20-12:00	Resilience engineering and requisite imagination
12:00-13:00	Lunch
13:00-14:00	Group work IV (The ability to anticipate)
14:00-14:40	Resilient safety management
14:40-15:00	Coffee/Tea
15:00-16:00	General discussion: What are the practical consequences of going from Safety-I to Safety-II?
